ABSTRACT

The National Education Association (NEA) has assembled data about its rival organization, the American Federation of Teachers (AFT). For each state, the total state membership is shown together with each local's identifying number, name, and total members for 1979 and 1980. Overseas membership is listed, as are comparative data for the years 1974 through 1980 concerning AFT membership, gain or loss of members, number of active locals, and state federations listed by AFT. A fact sheet shows the comparative strength of NEA and AFT in 1980. AFT administrator locals are listed as is the membership in 61 locals chartered by the American Federation of School Administrators, AFL-CIO. (MLF)

NOTE:

AFT locals recently were listed under 2 to 4 locals, 2 to 3 membership totals or different names in 2 to 5 locals though we tried to give membership figures for only one.

Membership in American Federation of Teachers includes many locals wholly or in part with mostly nonvoting members not on public school or instructional staff, often without a vote in AFT Convention, or as second-class members, such as:

NOV 17 1980

Custodians and janitors;
Bus drivers or transportation workers;
Cafeteria and maintenance workers;
Clerks, secretaries and office staff;
Librarians, nurses and welfare;
Paraprofessionals and aides;
Nonpublic school staff;
Youth and child center;
Administrators and supervisors (See ** on page 63);
Lawyers and law enforcement officers - see Wisconsin Local #3628 and Alabama #3941;
Adult group members;
Student members;
Total Auxiliaries in 54 locals.

1980 HIGHLIGHTS

1. AFT's official 1980 total membership was listed as 551,359. However at the 1980 AFT Convention a special mimeographed report raised the total to 568,000 due to late reports after the official year closed. These membership late figures will appear in the 1981 totals.

2. AFT membership gain for 1980 was officially reported as 32,080 or a gain of 6%.

3. States with the largest gains were Connecticut, Florida, Maryland, New Jersey, New York, Pennsylvania, Tennessee, Texas and Wisconsin.

4. The big news is loss of 348 locals dropped in 1977-80 with many of 1980 dropped locals not yet reported. 492 new locals - a net gain of only 144 locals, which averages out to a gain of 36 locals per year.

5. Of the 152 new locals in 1980, 42 were non-teacher locals and 15 were college locals while only 95 were teacher public school locals.

6. Two new administrator locals were chartered by AFT and some new locals were chartered by AFSA school administrators of the AFL-CIO, independent of AFT but affiliated through their AFL-CIO Educational Council.

7. Membership registered gains in 27 states and losses in 20 states for AFT.

8. Membership gains showed up mainly in locals of nurses, colleges, newly chartered, and of several large cities.

9. NEA's loss in membership was a little over 29,000 for 1980, too late to be reported exactly.

10. In several cases, AFT published sources for AFT locals were listed under 2 to 4 different names, and different local numbers with 2 to 3 different membership totals, but we tried to give the latest or most authentic name or membership.

[a] Of the 4,092 locals chartered since AFT's founding in 1916, 2,030 or 50 percent dropped out and 2,068 or 50 percent are still active in 1980.

[b] 152 new locals in 1980 reported by AFT as chartered in this year, including rechartered, reinstated, listed as new in previous year.

[c] 421 of 2,068 locals sent delegates to 1980 AFT Convention with 211 New York State locals present. Actually New York State under Shanker's leadership had nearly half the delegate votes as well, with 1,000 or more members.

[d] Locals becoming inactive not listed by AFT for the fourth time in over 20 years, without explanation. AFT in 1980 showed 348 was the largest number of defunct locals in AFT history in 1977-1980. Locals defecting in large numbers were Catholic Parochial schools, 16 college locals in New York State, and 61 locals in New York State, 49 in Illinois and 43 in California during 1977-1980. The 1980 losses for 1980 were much larger than listed since it came out in March 1980.
